The movie ends, but the night doesn't have to. Step out of the cinema and stay a little longer. Find a seat, order your favorite cocktail, and let the conversation continue beyond the screen. Talk about the scenes you loved, the ones you didn't, or forget about the movie and talk about everything else. A good film gives you something to think about. A good drink gives you more time to talk about it. Because sometimes, the best part comes after the credits. Cocktails After Movie at Doc Club & Friends.
